**First Office Action on the Merits**

***Election/Restrictions***

1. Applicant's election with traverse of Group I in Paper No. 9 is acknowledged. The traversal is on the ground(s) that the Examiner has not established that searching all groups would constitute an undue burden. This is not found persuasive because under PCT Rules once unity of invention is lacking, restriction is proper. As stated in the previous Office Action, the claimed compounds lack a significant structural element that qualifies as the special technical feature that defines a contribution over the prior art. However, the Examiner will state for the record that a search of the entire scope of the claimed invention would require a number of different searches that would constitute an undue burden.

The requirement is still deemed proper and is therefore made **FINAL**.

2. Claims 1-8 will be examined to the extent they read on applicant's elected Group I.

***Specification***

3. The abstract of the disclosure is objected to because it is not on a separate sheet. Correction is required. See MPEP § 608.01(b).

4. Applicant is reminded of the proper content of an Abstract of the Disclosure.

In chemical patent abstracts for compounds or compositions, the general nature of the compound or composition should be given as well as its use, e.g., "The compounds are of the class of alkyl benzene sulfonyl ureas, useful as oral anti-diabetics." Exemplification of a species could be illustrative of members of the class. For processes, the type reaction, reagents and process conditions should be stated, generally illustrated by a single example unless variations are necessary.

Complete revision of the content of the abstract is required on a separate sheet.

### ***Claim Rejections - 35 USC § 112***

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The instant claims are indefinite for the following reasons:

The structure of formula I identifies the variable "R<sup>17a</sup>" however, claim 1 defines the variable "R<sup>17a</sup>". It is suggested that "R<sup>17a</sup>" be rewritten as "R<sup>17a</sup>".

Claims 5 and 6 do not end with a period.

Claim 6 recites formula I but said formula is not defined by the instant claim.

Claim 7 is drawn to a "[u]se of the compounds of formula I...". The instant claim is indefinite because it does not recite any active, positive steps delimiting how this use is actually practiced. For the purpose of art rejection, the claim was read as a composition claim.

Art Unit: 1616

***Other Matters***

7. It is requested that nonelected subject matter be deleted from the instant claims.
8. It is also requested that the key at the bottom of page 52 be deleted in order to conform to US practice.

***Telephone Inquiry***

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Barbara P. Badio, Ph.D. whose telephone number is 703-308-4595. The examiner can normally be reached on M-F from 7:30am-4pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thurman Page can be reached on 703-308- 2927. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-1235.
